

WEEE management for all industries

In 2007, the UK introduced the WEEE Directive. The purpose of this Directive is to reduce the amount of electronic equipment being produced and to encourage everyone to reuse, recycle and recover it.

Whether you are a user of electrical equipment, a producer or distributor, you have a duty to recover and safely dispose of the equipment.

No matter what business you're in, we have a number of solutions that can help you comply with the legislation:

Corporate WEEE recycling

If you're an organisation looking to effectively manage the lifecycle of your electronics and safely dispose of retired or replaced equipment including mobile phones, laptops, computers and other popular IT equipment, contact ShP today to discuss our cost neutral WEEE consultancy and disposal services.

Manufacturer led recovery and disposal services

If you are a manufacturer looking to comply with WEEE regulations, then contact us. ShP can help create and manage manufacturer led trade-in schemes for many popular electronics including tablets, MP3 audio devices like iPods, mobile phones, laptops and similar devices.

Retail WEEE services

ShP offers a unique and leading web-enabled retail trade-in solution that retail clients can use to encourage WEEE recycling at point of sale. ShP retail brings the traditional online recycling model direct to the consumer providing a swift convenient trade-in service issuing instant payment by way of cash, vouchers or Maestro card.
